WHO ARE WE?

CYPRUS – THE MAP

The **third largest island** in the Mediterranean sea after Sicily and Sardinia

A country with long history, **first inhabitants in 10000 BC**, the Paleolithic period

Independent country since **1960**

Capital city is **Nicosia**, Lefkosia in Greek

Population **just over 1m** (848,300 in 2015)

Half of the island **occupied by Turkey since 1974** after Turkey invaded the country

Member of the **European Union since 2004**

Member of the **Eurozone since 2008**, currency **EURO**

The **most southeastern country** of Europe

Native language is **Greek**, local dialect **Cypriot**

THE CYPRUS PROBLEM

- Cyprus is an **independent country since 1960**. There were two communities on the island, the Greek Cypriots (majority) and the Turkish Cypriots (minority) who lived for many years on the island
- In **1963** there was a **conflict** between the two communities led by fanatic nationalist groups
- **On the 15th of July of 1974**, a **coup** led by some Greek Cypriots with the help of the Dictatorial Government of Greece at the time overthrew the legal president of Cyprus, Makarios
- Five days later on the **20th of July of 1974** **Turkish troops invaded** the island
- As a result **Turkey took over the 38% of the island**. This part is still **occupied**.

CYPRUS

- **200 thousand Greek Cypriots had to leave by force their homes** and come to the southern areas as refugees, thousands of people were killed and a number of people also still missing.
- **In 1985** the occupied areas were declared as independent forming the so called **“Northern Republic of Cyprus”** which is recognized by Turkey but **not recognized** by the United Nations, or any other country in the world
- **Only since 2004 Greek Cypriots are allowed to “visit” their home-land**, under conditions, e.g. showing a passport. Other country nationals can also visit the occupied area by showing a valid passport
- In case you decide to visit the occupied area **do not accept to have a stamp on your passport**, ask the guards at the crossing point to stamp you a blank piece of paper. **The other part is not recognized as a different country. Make sure you cross the border through legal points.**
- **Unfortunately a solution to the problem has not yet been achieved** although talks are being held over the years
